

# **Bucher Origin CF**

Bucher Vaslin offers you a return to our roots, the Bucher Origin closed-cage pneumatic press, as close to our origins as possible. Equipment tailored to the realities of winegrowing.

Where there are vines, there's Bucher Origin.

## Technical description

Configurations	Origin 22	Origin 30	Origin 40	Origin 50	Origin 64	Origin 80
Closed cage	х	×	( x	x	x	х
Sealless manual door	х	×	x x	×	x	x
Door opening dimensions (mm)	1040 x 500	1175 x 500	1306 x 500	1694 x 500	1300 x 600	1694 x 600
Rear sliding 290 L juice bin	х	×	x x	×	x	x
12 programmes	х	x	x x	x	x	х
OFM intelligent programme	х	×	x x	×	x	x
Control of must return pump	х	×	x x	×	x	x
Technical data	Origin 22	Origin 30	Origin 40	Origin 50	Origin 64	Origin 80
Compressor (m³/h)	60	60	80	100	140	140
Vacuum pump (m³)	145	145	145	220	220	220
Juice tray volume (litres)	320	320	490	490	400	400
Outlet diameter	DIN 80

Length	3500	3800	4190	4940	4430	5170
Width	1590	1630	1970	1970	2150	2150
Height	2090*	2170*	2120*	2120*	2240**	2240**

## Options

Must pump warning

Must pump control with retractable level probe device when sliding the screen

### Axial filling

With manual valve

Other options

Router Add-ons Spacers Fixed or mobile filling hoppers

#### The benefits

#### Adaptability

The Bucher Origin pneumatic press has wide-opening doors for quality filling of the press and easy emptying of the pomace. Its sliding screen ensures juice collection and easy access for washing.

Programming is user-friendly, using a touch-sensitive colour PLC. As standard, the PLC includes 2 sequential programmes and 6 pre-recorded automatic programmes. The operator is free to choose the most appropriate programme and modify the holding times during pressing. The 'intelligent' OFM programme is used to optimise holding times. This programme offers the possibility of automatically switching from one stage to another when flow rates are low, thereby reducing pressing times.

#### Washing

Cleaning the Bucher Origin pneumatic press is quick and easy. A rear hatch provides effortless access to the underside of the press to ensure wash water drains completely. The large door opening makes it easy to clean the inside of the tank. The press is also fitted with quick-fit drains that can be swivelled without the need for tools, for optimal washing. There is also a rinsing ramp for the outside of the tank.

#### **Operator safety**

The Bucher Origin press is equipped with cables all around the press to stop the machine as soon as the operator leans on it.

The press is equipped with a "door close" safety device before the tank is pressurized.
